

# Natwest 3 - pour encourager les autres

Am I alone in feeling little sympathy for these guys?

**Fact:** there was a [massive fraud](#) at Enron

**Fact:** a lot of ordinary people were fleeced and hurt

**Fact:** many financial institutions facilitated the fraud

**Fact:** the FBI has a plausible case (see [indictment](#) & [complaint](#))

There is something nauseating about the [media campaign](#) to protect them. If they stride the globe profiting from international capital markets and transactions, they can hardly go all Little-England when it comes to accountability. That you might end up in a US maximum security prison, sends good signal to actual and potential white collar criminals.
